DRLAB

One Powerful Platform for Pathology, Radiology, Diagnostic Centers & Hospitals

Beyond Software. Built Around Your Workflow.

DRLAB

ONE CONNECED DIAGNOSTIC ECOSYSTEM

DrLAB brings the entire diagnostic operation together through one intelligent digital ecosystem.

From the first patient interaction and sample collection to laboratory processing, radiology, reporting, billing and report delivery, every step is connected, coordinated and visible.

DrLAB is designed around how diagnostic businesses actually operate. It connects patients, doctors, technicians, pathologists, radiologists and management while bringing workflows, information and communication onto a single platform.

With smarter reporting, end-to-end sample visibility, digital patient and doctor experiences, actionable management insights and secure access, DrLAB helps eliminate operational gaps and simplify everyday complexity.

SPECIALLY DESIGNED FOR

- Diagnostic Centers
- Pathology Laboratories
- Radiology Centers
- Multi-Specialty Hospitals
- Corporate Laboratories
- Multi-Branch Diagnostic Chains
- Home Sample Collection Services

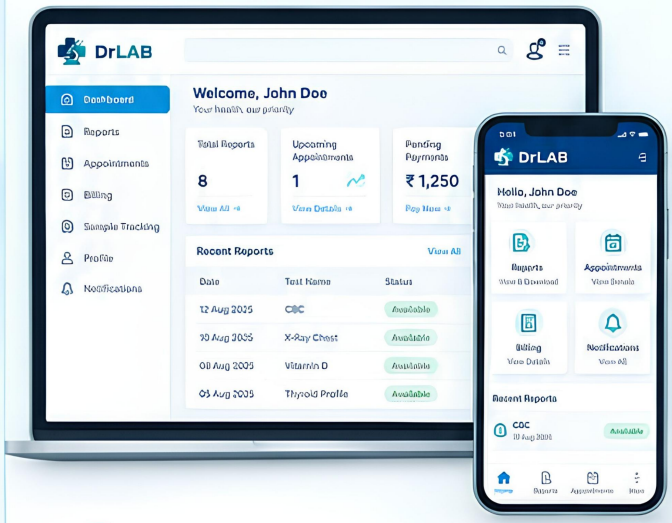

DRLAB

CONNECTED DIGITAL EXPERIENCES

Better access for patients. Smarter communication for doctors.

Patient Portal

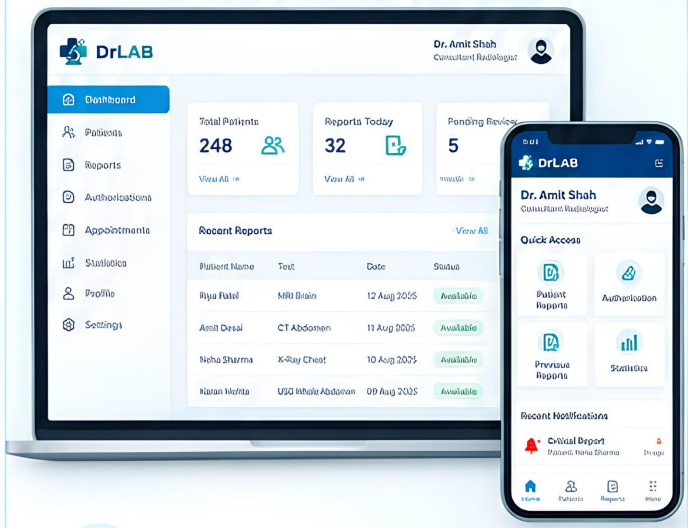

Your Reports, Anytime, Anywhere

- View reports online
- Download PDF reports
- View previous reports
- Appointment information
- Billing information
- Online payment
- Digital report delivery
- Report notifications
- Sample collection request
- Sample tracking

Doctor Portal

Provide doctors with secure and convenient access to patient diagnostic information.

- Doctor login
- Patient report access
- Report Authorization
- Previous reports
- Report download
- Online report viewing
- Critical report notifications
- Referral tracking
- Doctor-wise statistics

DRLAB

CONTROL EVERY STEP

Powerful administrative and pathology workflows in one connected platform.

ADMINISTRATIVE PORTAL

PATIENT MANAGEMENT

- Quick patient registration
- Unique Patient ID / UHID
- Complete patient history
- Patient demographic information
- Previous reports & investigation history
- Family / Member Management
- Repeat Patient Identification
- Birthday Remainder

APPOINTMENT MANAGEMENT

- Barcode-Based Sample Management
- Barcode print option
- Receipt
- Online & counter appointment booking
- Doctor-wise scheduling
- Appointment reminders
- Rescheduling & cancellation
- Walk-in patient management

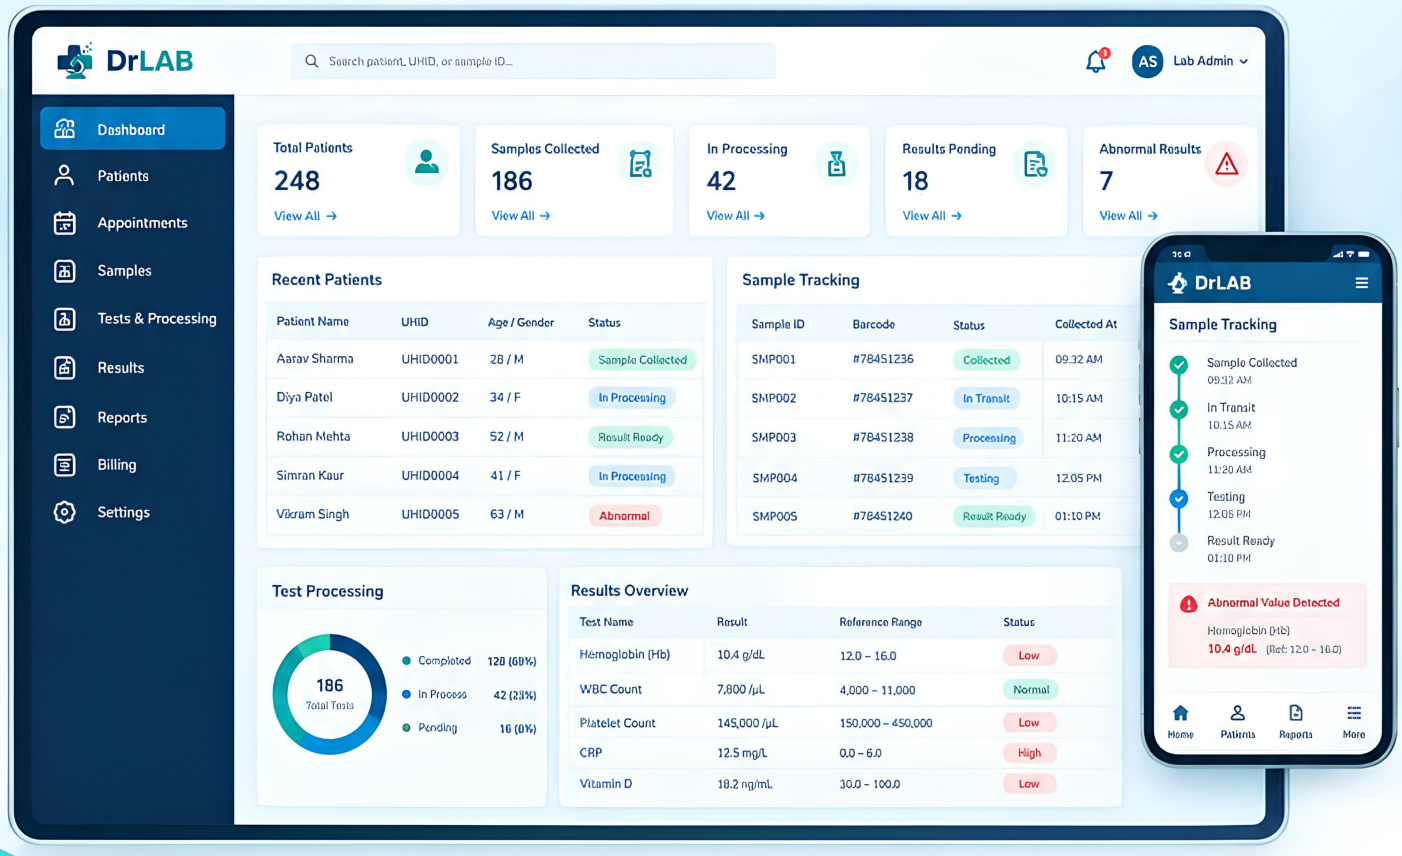

PATHOLOGY MANAGEMENT

TEST & SAMPLE WORKFLOW

- Test & profile management
- Sample collection management
- Barcode-based sample identification
- Sample tracking
- Department-wise processing
- Test parameter management

RESULTS & QUALITY

- Critical value alerts
- Result entry
- Result verification
- Pathologist authorization
- Previous-result comparison
- Automatic calculation of derived parameters
- Abnormal result highlighting
- Repeat test management

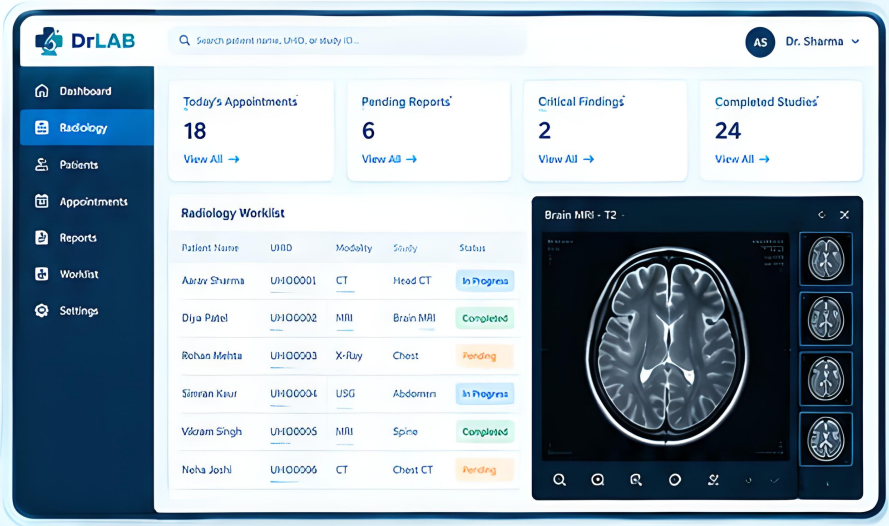

DRLAB

FROM IMAGE TO INSIGHT

Connected radiology workflows and professional digital reporting.

Radiology Management

- Radiology appointment management
- Modality management
- Patient worklist
- Structured reporting
- Report templates
- Voice-to-text reporting support
- Report verification
- Digital report authorization
- Previous study comparison
- Critical finding alerts

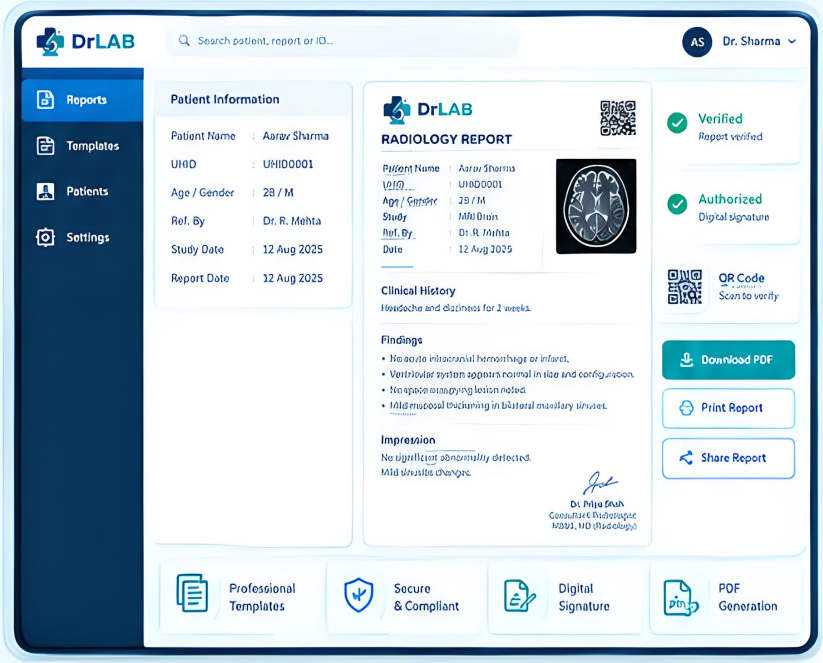

Digital Reporting

Create standardized, professional diagnostic reports with flexible templates.

- Pathology report templates
- Radiology report templates
- Custom report formats
- Lab-specific headers & footers
- Doctor details
- Digital signatures
- QR code for reports
- Report verification
- Report version control
- PDF report generation
- Report printing
- WhatsApp/SMS notification integration
- Patient portal delivery
- Bot Chat for Client

DRLAB

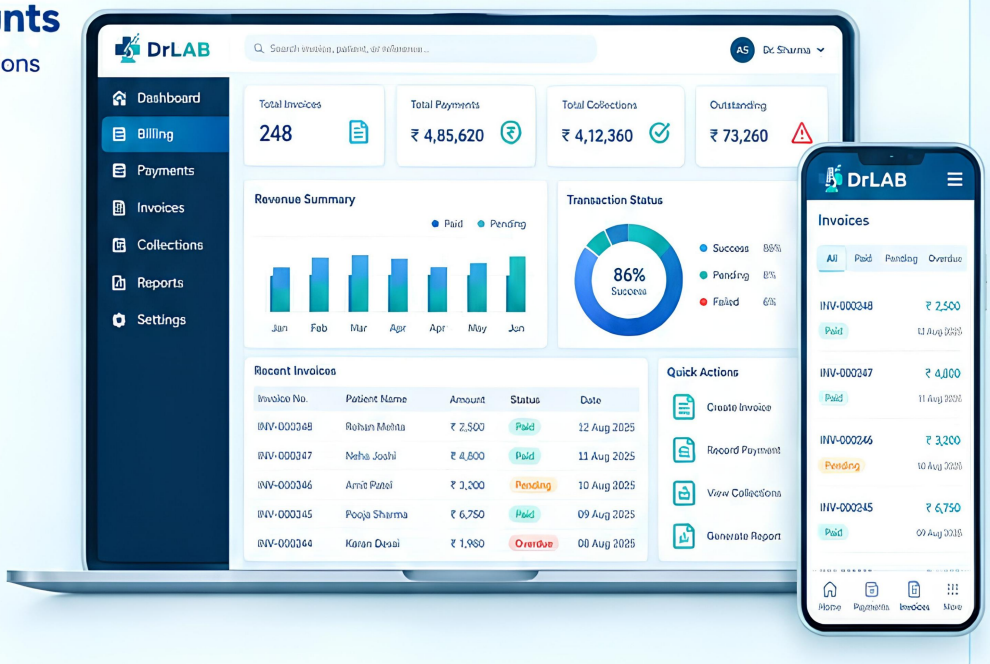

CONNECT OPERATIONS WITH REVENUE

Manage financial workflows and referral relationships from one platform.

Billing & Accounts

Manage financial operations from the same platform.

- Test-wise pricing
- Package management
- Corporate rates
- Doctor/referral rates
- Discounts
- Coupons
- Advance payments
- Cash/Card/UPI payments
- Online payments
- Due management
- Refund management
- GST-ready billing
- Invoice generation
- Daily collection reports
- Outstanding reports

Referral & Doctor Management

- Doctor master
- Hospital/Clinic master
- Referral management
- Referral-wise billing
- Commission/incentive management
- Doctor-wise patient statistics
- Doctor-wise revenue
- Referral reports
- Automated report sharing

DRLAB

SEE. CONTROL. SCALE.

Real-time visibility for growing diagnostic businesses.

Multi-Branch Management

One Platform. Multiple Locations.

Designed for diagnostic chains and growing laboratory networks.

- Centralized administration
- Branch-wise operations
- Branch-wise billing
- Central test master
- Central price management
- Branch-wise users
- Branch-wise reports
- Consolidated financial reports
- Inter-branch sample management
- Centralized patient history
- Role management
- Branch-wise user & role management
- Doctor allotment for QC

Analytics & Reports

Get real-time visibility into laboratory and diagnostic operations.

Dashboard Metrics

- Total patients
- Today's registrations
- Pending samples
- Pending reports
- Completed reports
- Revenue
- Outstanding payments
- Test volume
- Branch performance
- Doctor referrals
- Department performance
- User performance
- Doctor performance

Reports

- Daily collection
- Test-wise report
- Patient-wise report
- Doctor-wise report
- Referral report
- Revenue report
- Outstanding report
- Sample tracking report
- TAT Report (Turnaround Time)
- Branch-wise performance
- Financial reports

Smart Alerts & Notifications

Keep Everyone Informed Automatically

Patient Notifications

- Appointment confirmation
- Sample collection notification
- Report-ready notification
- Payment notification

Doctor Notifications

- Report available
- Critical result notification
- Report verification notification

Management Alerts

- Pending reports
- Delayed samples
- Inventory shortage
- Expiring stock
- Outstanding payments

DRLAB

BUILT TO GROW WITH YOUR BUSINESS

Cloud-based. Connected. Scalable. Designed for India's growing diagnostic industry.

Benefits of DrLAB

No Complex Infrastructure. No Heavy IT Setup.

- Cloud-based platform
- Access from anywhere
- Automatic software updates
- Centralized security & user management
- Managed data backup options
- Real-time business dashboard
- Multi-branch management
- Multiple users & role-based access
- Mobile-friendly access
- API & third-party integration support
- Easily scalable as your business grows
- BotChat Ready

Flexible Business Model

Flexible subscription plans designed for the Indian diagnostic market.

STARTER

For small pathology laboratories

Core Laboratory + Patient + Billing + Reporting

PROFESSIONAL

For diagnostic centres

Pathology + Radiology + Billing + Doctor/Patient Portal + Analytics

ENTERPRISE

For hospitals & diagnostic chains

Multi-Branch + Advanced Reporting + Integrations + API + Centralized Management

CUSTOM

For large organizations

Customized workflow + integrations + dedicated support + enterprise requirements

SECURITY & ACCESS CONTROL

Your Diagnostic Data Deserves Strong Protection

- Role-based access control
- User-wise permissions
- Department-wise access
- Secure authentication
- Activity/audit logs
- Report access control
- Data backup
- Login history
- Password policies
- Multi-level authorization
- Secure API integration
